\* Board policy adopted October 11, 1996, states that if Virginia is notified that one of its licensees has been found in violation of regulations by a licensing board of another state, the Enforcement Division will open an investigation if the conduct in the other state would violate a regulation of the Commonwealth. In situations where the licensee has been disciplined in another state and the disciplinary action involves a: fine, reprimand, warning or suspension of 60 days or less, the Enforcement Division will close the investigation administratively, flag the licensing file, and notify the regulant. Any other complaints will be investigated and adjudicated if necessary.

\*\* Variable based on the extent that professional competence was adversely affected.
